Quintam Engineering

Delivering Excellence

Introduction

Established in 2019, Quintam Engineering (PTY) LTD, has made a mark as a preferred service provider in the engineering sector of South Africa, providing quality services to our customers at competitive rates.

Based in Vereeniging, Gauteng, we are an engineering company focused on providing innovative solutions for the challenges of the modern era, specializing in mechanical engineering, mechanical repairs, machining and fabrication for the Mining, Power, Water, Food, Chemical and Petroleum industry trough out
South Africa and neighbour countries.

"The difference between the impossible and the possible lies in a person's determination."
- Tommy Lasorda.

Mr Quintus van der Merwe, owner of Quintam Engineering, at Eskom Palmiet, Cape Town.
Pumped energy storage project, commissioning, quality inspection and sign off.

At Quintam Engineering we strive to find the best solution in solving our client's challenges with cost effective solutions, that doesn't compromise the quality and efficiency of the plant.

What makes us stand out is our compatibility to preform under pressure and deliver quality work to keep our clients satisfied and their product line active.

Our Mission

To contribute to the growth and development of South Africa's industrial, mining, power, water, food and chemical sectors through innovative and reliable engineering solutions.

Our Vision

To become a leading engineering firm in the region, known for quality, expertise, and commitment to customer satisfaction.

Our Values

- **Quality:** Delivering high-standard, cost effective work that meets or exceeds client expectations
- **Innovation:** Embracing new technologies and approaches to solve complex engineering challenges
- **Integrity:** Maintaining the highest ethical standards in all business dealings
- **Customer Focus:** Prioritizing client needs and building strong, long-term relationships

Future Plans

To expand operations, diversify services, and become a regional leader in the engineering industry.
